

Montana PRIMERS are perfect in combination with Montana GOLD spray paint

UNIVERSAL PRIMER

FOR MULTIPLE SURFACES

Montana PRIMER enables excellent adhesion and further coating of synthetic, nitro-combination or acrylic spray paints. Montana offers different primers for application on different surfaces that need to be pre-treated such as plastic, metal and styrofoam. The Universal Primer also works on leather, cardboards, wood and many other materials. After the Primers have been applied you can work with Montana spray paints on the pre-treated ground. Use primers for efficient and more permanent results. Easy to apply, sand and re-coat. For indoor and outdoor applications (wearing a respirator mask is recommended). Cans which are not empty should be disposed of as "special refuse". Available as 400ml.
